

Joseph Zembach

Your tongue tells the
flavors of foods, gum,
and candy.

Don't bite your tongue.

Your skin tells you if it's
rough, smooth, cool or warm.
Keep your skin clean.

Your ears tell you if it's
soft or hard.

Don't stick sharp things
into your ears.

Your nose tells the
smell of foods.

Don't put pencils into
your nose.

Your eye tell you
the colors.

Don't rub your eyes.
