## Reasons for accepting the nomination for Board President:

I believe in our mission and I am willing to make major time, talent and personal funds commitment to SHCS. My goal is to support all board, staff and volunteers so they can be effective and SHCS can best accomplish its mission. I like to operate with all information in the open and public. I will continue to support board activities through board committees. I will continue to emphasize documenting all major board policies, procedures and processes. I agree with our bylaws, that the president should serve no more than 3 terms and I will provide opportunities for leadership growth from our excellent board.
